SUMMARY

I do not just describe software. I build it and ship it. Published a Python package on PyPI (ElectoralSim), co-founded a startup (CrowdTwin), and developed full-stack applications deployed and running live. My dual degree in Computer Science and Human Sciences means I think about architecture and user behavior together, not as separate concerns. I write clear code, ship working features, and communicate without jargon. 200 resumes later, you will remember this one.

EDUCATION

IIIT Hyderabad B.Tech in Computer Science, M.S. by Research in Computing and Human Sciences Dual degree offered by the Human Sciences Research Center	2021–Present
Mary Gardiner's Convent School Class XII — 90.1%	2021
City Montessori School Class X — 94.2%	2019

EXPERIENCE

SERC Digital Twin - Built real-time MERN dashboard streaming IoT data from 4 environmental sensors. - Monitored temperature, humidity, water, and air quality through live visualizations.	<i>Environmental IoT</i>
TAFEA - Engineered student client integrating LLM APIs through structured SDLC methodology. - Designed tailored student workflows with AI-powered features and iterative testing.	<i>System Design</i>

PROJECTS

ElectoralSim - Published vectorized Python library on PyPI for electoral system simulation. - Architected simulation engine supporting multiple voting methods and district configurations.	PyPI Package
CrowdTwin - Created crowd simulation architecture for major event planning as co-founder. - Built predictive dashboard prototype for real-time crowd behavior analytics.	Startup Co-Founder
ayushmaurya.online - Built full-stack portfolio on custom Ubuntu stack without framework dependencies. - Deployed Linux server environment handling DNS, SSL, and reverse proxy.	Full-Stack Portfolio
ML for Local Geoguesser Built ResNet50 model achieving 92% region classification accuracy.	Deep Learning
Highland History Project Developed OCR and LLM pipeline for historical document digitization.	OCR + LLM Pipeline

TECHNICAL SKILLS

Languages: Python, C/C++, JavaScript, SQL, HTML/CSS
Technologies: Machine Learning, PyTorch, Linux, System Design, Systems Programming
UI/UX and Design: Wireframing, Prototyping, User Stories, User Research, Interaction Design

HONOURS

UGEE Rank: 111 out of 40,000+ candidates
JEE Main: 96.9 percentile
School Grades: Class XII — 90.1%; Class X — 94.2%

ACTIVITIES

Bass guitarist in college band and lawn tennis player.
